

On behalf of Flight Attendants and passengers please do not allow
Paxs to use cell phones on board flights. I can only think of the horror stories
that will result from the use of these phones on board an aircraft. People are not
their best behavior on an aircraft. I can only think of the problems that would
result with loud, obnoxious and spirited phone conversations. Perhaps a better
solution would be to allow computers to transmit. I am unsure what advantage this
may give to anyone considering harming an aircraft. Please DO NOT ALLOW CELL PHONE
USE, today, tomorrow!!!!!!!
Sincerely, Robin Bedford
